Solar Flood Light

SOLAR FLOOD LIGHT

Thank you for choosing our product.

● For any questions, free to call or email us any time.
● Please refer to the actual product If the diagrams provided shows a slight difference.
● Before using the product, please read the following precautions carefully to avoid damage or errors.
● This user manual applies to all models of this product.

Product Introduction

● A solar flood light is an electric light that converts light energy into electricity through solar panels. The advantages of this product are that it does not need wiring, is easy to install, uses solar power to generate electricity, saves electricity and saves money. During the day, solar panels absorb sunlight and convert it into electricity that is stored in batteries. At night, the lights will automatically turn on.

● The solar flood light has IP65 waterproof function, can work safely in rainy days, avoid short circuit and fire. Suitable for outdoor use, add a bright atmosphere to your garden, patio, lawn, porch, gate, patio, etc.
