Introducing the ATEX LED Hazardous Explosion Proof Flood light - your ultimate lighting solution for hazardous environments. With power options of 100W, 150W, and 300W, our cutting-edge technology ensures maximum brightness with its Slick design and an impressive efficacy of 140Lm/w!

Built tough to withstand the harshest conditions, our floodlights feature a sturdy aluminum and tempered glass construction with an IP66 rating for superior durability. Alongside a 5 year warranty for reassurance.

With a wide beam angle of 120 degrees, these lights provide exceptional coverage, illuminating your workspace effectively. The cool white colour temperature of 5000K allows for optimal lighting.
