Introducing the Atex 2W Explosion Proof Flash Light – your ultimate companion in hazardous environments! Engineered to perfection, this flashlight is built with safety and durability in mind. With its zone 1 rating and ATEX and IECEx compliance, you can trust it to perform flawlessly even in the most extreme conditions, from -40 to +40 degrees Celsius.

Featuring a sealing gasket that can withstand temperatures ranging from -40 to 200 degrees Celsius, this flashlight is designed to keep up with your demanding needs. Its compact dimensions of 173x47mm (l x w) make it easy to carry and handle, while the T4 Temperature Glass ensures optimal visibility.

Switching between modes has never been easier with our single-handed switching mechanism. No more fumbling around or wasting precious time – simply operate the flashlight effortlessly with one hand and one button that fits perfectly in your overall pockets.

Illuminate your path with confidence using the Atex 2W Explosion Proof Flash Light. Trust in its reliability, functionality, and uncompromising performance. Safety should never be compromised when working in hazardous environments – choose Ecomode ATEX for peace of mind.
