Introducing The EcoMode - ATEX 10W Emergency Twin spot, the ultimate solution for reliable and energy-efficient lighting in hazardous environments. Crafted with precision using explosive-proof, die-casting aluminium material and tempered glass, this IP66-rated emergency twin spot is built to withstand even the toughest conditions.

With its low working wattage it is designed for optimal energy savings without compromising on performance. 3/4" NPT or M25 conduit hub included, wall and end bracket mounting options, and an access door on the front, installation and maintenance have never been easier.
