Atex Zone 1 – LED Emergency Slimline Bulkhead 3W

Technical Data	Details
Brand	EcoMode
Wattage	5W
Sound Intensity	90 dB
Colour Temperature	Red
Rating	Zone 1, 2, 21 & 22
Voltage Input	220v AC
IP Rating	IP66
Lifespan	＞50,000H
Flash Frequency	150 times/min
IK Rating	IK10
Working Temperature	-40°C to +60°C
Power Factor	>0.95
Warranty	5 Years
Dimensions (CM)	205mm x 160mm
Certificates	CE, UKCA, Ex, CB & ATEX
Material	Copper-free Aluminium
Application	Petroleum storage, ocean marine, aerospace field, chemical industry, metal treatment, solvent-based paint workshops, and alcohol industry

The **EcoMode** LED alarm light features a 5W output with a sound intensity of 90 dB and a red color. Designed for hazardous environments, it offers a flash frequency of 150 times per minute, with an IP66 and IK10 rating, and operates in temperatures ranging from -40°C to +60°C. The unit boasts a lifespan exceeding 50,000 hours and a power factor of >0.95. Certified with CE, UKCA, Ex, CB & ATEX, and constructed from copper-free aluminum, this alarm light is ideal for use in petroleum storage, aerospace, chemical industries, and more. It measures 205mm x 160mm and comes with a 5-year warranty.
